DETAILED ACTION

Response to Amendment

1. The amendment filed on 7/9/2007 has been entered. The specification and drawings are objected to for the following informalities.

2. This application is in condition for allowance except for the following formal matters:

Specification

3. The abstract of the disclosure is objected to because in the 7/9/2007 amended sentence a grammatical link between "image data file" and "graphically defining...explosion effect" is needed such as the word "and" and adding in the same sentence after "explosion effect" "in the graphics image data file" or similar amendments expressing the invention. Correction is required. See MPEP § 608.01(b).

4. The disclosure is objected to because of the following informalities:

in paragraphs [033] and [036] a graphics chip 36 is described while in paragraphs [054] and [062] a graphics engine 36 is described. Since a graphics chip and a graphics engine may be different things, one a chip the other may be software, applicant needs to clarify element 36 of the drawings, see figure 1, by amending the specification and note the specification at paragraph [033] last sentence states graphics chip 36 is preferably a Matrox G400 and note 24 is a 3D rendering engine and 21 is a

Art Unit: 2628

graphics engine command interface, thus, applicant may wish to refer to 36 as both graphics chip or graphics engine.

Appropriate correction is required.

Drawings

5. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: reference numbers 34, 35, 43, and 44 of figure 1 and reference number 90 of figure 6. Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
